

Nanjing Silicon Intelligence Technology Group Co., Ltd.
Board Memorandum of Profit Forecast for the financial year ending December 31, 2026
and Working Capital Forecast for the period up to June 30, 2027

Nanjing Silicon Intelligence Technology Group Co., Ltd.

Board Memorandum of Profit Forecast

For the financial year ending December 31, 2026

And

Working Capital Forecast

For the period up to June 30, 2027

**Declaration on the Profit Forecast and Working Capital Forecast
of Nanjing Silicon Intelligence Technology Group Co., Ltd.**

The Board of Directors of Nanjing Silicon Intelligence Technology Group Co., Ltd. hereby declares that:

- (i) The Directors of the Company (the “Directors”, “we” or “us”) have prepared the accompanying profit forecast for the year ending December 31, 2026 (“Profit Forecast”) and cashflow forecast for the period up to June 30, 2027 (“Working Capital Forecast”, and together with the Profit Forecast, the “Forecasts”) after due and careful enquiry.
- (ii) We confirm that the Profit Forecast and Working Capital Forecast have been properly compiled in accordance with the bases and assumptions adopted by us as set out therein and is presented on the basis consistent in all material respects with the accounting policies normally adopted by the Group in preparing the consolidated financial information to comply with the IFRS Accounting Standards.
- (iii) We forecast that, on the basis and assumptions set out in the Profit Forecast, the Group’s consolidated net loss for the year ending December 31, 2026 will not be more than RMB8.4 million, and adjusted net profit¹ will not be less than RMB22.1 million.
- (iv) Taking into account the financial resources available to us, including the Group’s internally generated funds, available credit facilities and the estimated net proceeds from the Global Offering, our Directors hold the opinion that we have sufficient funds to meet our working capital requirements for at least the next 12 months from the expected date of the Prospectus of the Company.
- (v) We confirm that we are not aware of any extraordinary items, which would significantly affect the results forecasted in this memorandum, for the Forecast Period.
- (vi) We are solely responsible, jointly and severally, for the truthfulness, correctness and reasonableness of the Forecasts.

Note 1: To supplement our financial information, which is presented in accordance with IFRS Accounting Standards, we also provide adjusted net profit or loss as a non-IFRS measure, which is not required by, or presented in accordance with, the IFRS Accounting Standards. We define adjusted net profit or loss (non-IFRS measure) as loss for the year/period adjusted by adding back listing expenses, equity-settled share-based payments expenses and accretion of redemption liabilities.

Approved for and on behalf of the Board of Directors of
Nanjing Silicon Intelligence Technology Group Co., Ltd.

Name: Sima Huapeng
Title: Executive Director, Chairman of the Board

1. Introduction

1.1 Background

Nanjing Silicon Intelligence Technology Group Co., Ltd (the “Company”, “group”, “we” or “us”), is the largest digital human agent provider in China, providing preeminent GJ AI workforces to enterprises across multiple industry verticals. The Company generated its revenue from provision of comprehensive and synergistic GJ AI workforce solutions, including GJ AI Real-time Voice Agent, GJ AI Video Generation Agent, GJ AI Live Streaming Agent, and GJ AI Real-time Video Agent as well as the newly-offered GJ Autopilot AIGC Agent. We ranked first among all digital human agent providers in China in terms of revenue generated from provision of digital human agent solutions in 2024, holding a market share of 32.2% in the digital human agent industry in China, according to the CIC report.

In connection with the proposed listing of the Company’s shares on the Main Board of the HKSE (the “Proposed Listing”), the Directors have prepared this memorandum and are pleased to submit to the HKSE strictly for reference purposes only. This memorandum must not, and is not intended to, be distributed to any other party except the HKSE without our prior consent.

This forecast of the consolidated profit and total comprehensive income for the year ending December 31, 2026 (the “Profit Forecast”), and the working capital forecast of the Group for the period up to June 30, 2027 (the “Working Capital Forecast”, and together with the Profit Forecast, the “Forecasts”) have been prepared to summarize all latest information available to the Directors and the basis and assumptions used in the preparation of the Forecasts.

1.2 Profit Forecast and Working Capital Forecast

The Profit Forecast and Working Capital Forecast are the sole responsibilities of our Directors. This memorandum has been prepared on the principal basis and assumptions as set out in Section 1.3 and Section 2, respectively, of this memorandum, and contains all the relevant information available to our Directors and management of the Company, which is significant to an appraisal of the Forecasts. This information has not been independently audited or otherwise verified by our Company’s reporting accountant. Details of the Profit Forecast and Working Capital Forecast are set out in Section 3 and Section 4 to this memorandum, respectively.

1.3 Basis of Preparation

The Profit Forecast has been prepared based on:

- the audited results of the Group for the year ended December 31, 2023, 2024 and 2025;
- the unaudited management account of the Group for the four months ended April 30, 2026; and
- the management forecast of the results of the Group for the year ending December 31, 2026 (“Profit Forecast Period”).

The Working Capital Forecast has been prepared based on:

- the audited results of the Group for the year ended December 31, 2023, 2024 and 2025; and
- the management forecast of the results of the Group for the period up to June 30, 2027 (“Working Capital Forecast Period”, and together with the Profit Forecast Period, the “Forecast Period”).

The Profit Forecast and the Working Capital Forecast have been prepared based on the existing events, plans and intentions of the Directors. As these plans and intentions are based on assumptions of future events, which by their nature are subject to uncertainties, the Group’s actual profits and cash flows may differ significantly from the Forecasts. Save for the factors disclosed in the Prospectus and in this memorandum, the Directors do not estimate any unusual items, which are unforeseeable and beyond their control during the Forecast Period.

The principal accounting policies adopted in the preparation of the Profit Forecast are consistent in all material respects with those adopted by the Group as set out in the Accountant’s Report of the Group included in Appendix I and Appendix II to the Prospectus and are in accordance with IFRS Accounting Standards.

The Forecasts have been prepared after taking into account the Company’s Proposed Listing, which is scheduled

to take place in or around June 2026.

All amounts are stated in RMB, unless otherwise stated.

Terms used in this memorandum should have the same meanings as defined in the Prospectus.

2. Assumptions for the Preparation of the Profit Forecast and Working Capital Forecast

The Directors have made the following assumptions in preparation of the Forecasts:

2.1 Principal accounting policies

- The Forecasts have been prepared consistently in all material respects with the accounting policies currently adopted in the Accountant's Report.

2.2 Principal assumptions

- The Group will be able to continue in business and will not be materially interrupted by any unforeseeable factors or any unforeseeable reasons that are beyond the control of the Directors, including the occurrence of pandemic, natural disasters or catastrophes.
- The Group can substantially maintain the business relationship with all the major customers or, if applicable, secure replacement of major customers during the Forecast Period.
- The Company will continue to be principally engaged in providing GJ AI workforce solutions to our clients, and continuously enhance the value of GJ AI workforces and provide the GJ Autopilot AIGC Agent during the Forecast Period.
- There will be no material changes in existing government policies or political, legal (including changes in legislation or regulations or rules), fiscal or economic conditions in China or any other territories in which the Group operates during the Forecast Period.
- There will be no material change in digital human agent industry in which we operate, and there will be no material change in prevailing business and operational policies and practices for the digital human agent industry.
- There will be no significant changes in the bases and rates of taxation, surcharges or other government levies in the countries or territories in which the Group operates except as otherwise disclosed in the Prospectus.
- There will be no material changes in inflation or interest rates, or foreign currency rates from those currently prevailing in the context of our operations during the Forecast Period.
- The Forecasts have been prepared taking into account the Directors' and key senior management's continued involvement in the operations of the Group. It is assumed that the Group will be able to retain its key management and personnel during the Forecast Period.
- The Group will be able to recruit sufficient qualified personnel to achieve its planned expansion and that staffing level will be sufficient for the operation of the Group during the Forecast Period.
- Detailed assumptions relating to our key business segments i.e. GJ AI workforce solutions during the Forecast Period are stated in Section 3 and Section 4 to this memorandum.
- As of [April 30, 2026](#), we did not have any outstanding loans. We are able to utilize banking and other facilities at the prevailing interest rates depending on working capital requirements where necessary.
- Except for as disclosed elsewhere in the Forecasts for capital expenditures, there will be no material acquisition or disposal of assets or investments, and there will be no material unforeseen capital expenditures or bad debts.
- There will be no material delays to the expansion plans or strategies of the Group.
- There will be no material claims and litigation likely to arise, and the Group's operations, results, and financial position will not be adversely affected by the occurrence of any of the events described in the section headed "Risk Factors" in the Prospectus.

- No convertible securities of the Company would be issued during the Forecast Period, including but not limited to any option that may be granted pursuant to the Share Option Scheme.
- There will be no change in the use of proceeds as set out in the section headed “Future Plans and Use of Proceeds” of the Prospectus and the plans will be implemented as planned with no material change or delay.
- Save as disclosed in the Prospectus, the Directors do not expect any other extraordinary items to occur during the Forecast Period.
- Unless otherwise specified, amounts denominated in HK\$ and RMB have been translated, for the purpose of illustration only, into each other in this prospectus at the following exchange rates prevailing on the Latest Practicable Date: HK\$1.00: RMB0.87408.
- No dividend will be declared or payable during the Forecast Period.
- No impairment on Property, plant and equipment, Right-of-use assets and Other non-current assets during the Forecast Period.

2.3 Proceeds and listing expenses

Assuming the Over-allotment Option is not exercised and based on the mid-point of the proposed Offer Price range at HK\$245.31 per Share, it is anticipated that the Group will receive net proceeds of approximately HK\$1,279.1 million (being estimated gross proceeds of approximately HK\$1,397.0 million less underwriting commission, professional expenses, brokerage, transaction levy and fee in aggregate of approximately HK\$117.9 million in relation to the Proposed Listing) in or around June 2026. Of which, approximately HK\$41.5 million is anticipated to be recognized in the statement of profit and loss as expenses, and approximately HK\$76.4 million is anticipated to be recognized in the statement of financial position as equity. The Proposed Listing of the Company is an H-share IPO of a joint stock company established in the PRC, whereby the Company is seeking a listing for its existing shares as well as offering to issue new shares at the IPO price. We adopted a common practice of allocating the jointly incurred cost as profit and loss or as a deduction of equity, which is based on the proportion of the number of new shares we plan to list to the total number of shares we plan to list on the HKEx.

3. Profit Forecast for the year ending December 31, 2026

The audited results for the financial years ended December 31, 2024 (“FY2024”) and December 31, 2025 (“FY2025”), and the forecasted results for the financial year ending December 31, 2026 (“FY2026”) are set out below:

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026

Note 1: RMB1.1 million and RMB18.3 million of listing expenses have been recognized during FY2024 and FY2025, with approximately RMB15.1 million of listing expenses anticipated to be recognized in profit and loss as part of the administrative expenses in or around June 2026. For details related to the recognition of listing expenses, please refer to “2.3 proceeds and listing expenses”.

3.1 Revenue

We provide comprehensive GJ AI workforce solutions to customers across multiple industries, such as healthcare, education, legal services, finance, culture, entertainment and elderly care. Our integrated offerings include GJ AI Real-time Voice Agent, GJ AI Video Generation Agent and GJ AI Live Streaming Agent, GJ AI Real-time Video Agent, as well as the newly offered GJ Autopilot AIGC Agent, which started to generate revenue in the Track Record Period.

Revenue of the Group for the year ending 2026 is projected by the Directors based on the consideration of various factors, including (i) estimated revenue generated for the 4 months ended April 30, 2026, (ii) expected revenue derived from existing and potential customers for the 8 months ending December 31, 2026, and (iii) growing customer pipelines from the GJ Autopilot AIGC Agent business segment for the Forecast Period.

Revenue forecasts are prepared based on (i) existing contracts; and (ii) anticipated revenue from both existing and new customers. During the Profit Forecast Period, over 80% of the forecasted total revenue is supported by signed contracts, framework agreements or strategic cooperation agreements, with the remaining portion mainly based on pitching documents, written records in regard to business cooperation or management projection. Total revenue generated from GJ AI workforce solutions is expected to be RMB1,091.3 million for the year ending December 31, 2026, representing a year-on-year increase of 38.3%. The year-on-year increase in revenue for the year ending December 31, 2026 is mainly driven by the anticipated growth in both GJ AI Real-time Video Agent and the GJ Autopilot AIGC Agent business.

A breakdown of the Group’s revenue forecast by business segments is set out below:

	2024	2025	Jan-Apr	May-Dec	YoY Change		
			2026	2026	2026	2024 vs 2025	2025 vs 2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast		
Revenue (In RMB thousands)							
GJ AI Real-time Video Agent	612,656	722,872	<u>200,324</u>	<u>627,361</u>	<u>827,685</u>	<u>18.0%</u>	<u>14.5%</u>
GJ Autopilot AIGC Agent	-	51,388	<u>11,977</u>	<u>240,881</u>	<u>252,858</u>	<u>-</u>	<u>392.1%</u>
GJ AI Video Generation Agent and GJ AI Live Streaming Agent	25,993	10,583	<u>1,311</u>	<u>5,480</u>	<u>6,791</u>	<u>-59.3%</u>	<u>-35.8%</u>
GJ AI Real-time Voice Agent	16,789	3,975	<u>2,075</u>	<u>1,911</u>	<u>3,986</u>	<u>-76.3%</u>	<u>0.3%</u>
Total	655,438	788,818	<u>215,687</u>	<u>875,633</u>	<u>1,091,320</u>	<u>20.3%</u>	<u>38.3%</u>

GJ AI Real-time Video Agent

Revenue generated by GJ AI Real-time Video Agent is expected to grow from RMB722.9 million in FY2025 to RMB827.7 million in FY2026, representing a year-over-year growth of 14.5%. Such revenue growth is driven by the increasing demand from the Group’s key customers, as well as a capture of new demand emerged from digital human agent market’s customer diversification process.

GJ Autopilot AIGC Agent

Revenue generated by GJ Autopilot AIGC Agent is expected to grow from RMB51.4 million in FY2025 to RMB252.9 million in FY2026, representing a year-over-year growth of 392.1%. GJ Autopilot AIGC Agent is a new business recently launched in the second half of FY2025. While the scale of this business was still at a ramp up stage during the Track Record Period, existing contracts and prospective customer indication have demonstrated its high market demand and strong revenue growth potential.

GJ AI Video Generation Agent and GJ AI Live Streaming Agent

Revenue generated by GJ AI Video Generation Agent and GJ AI Live Streaming Agent is expected to drop from RMB10.6 million in FY2025 to RMB6.8 million in FY2026, representing a year-over-year decrease of 35.8%. This was mainly caused by the more favorable discount terms we offered for these matured solutions with the shift of our focus to developing GJ AI Real-time Video Agent and GJ Autopilot AIGC Agent. Due to the same reason, our revenue generated from GJ AI Real-time Voice Agent decreased during the same years.

GJ AI Real-time Voice Agent

Revenue generated by GJ AI Real-time Voice Agent is expected to maintain at RMB4.0 million in FY2026, representing a year-over-year increase of 0.3%. This was mainly attributable to our efforts in developing GJ AI Real-time Video Agent to address the demands for key account customers along with the growth of digital human agent industry in China.

3.2 Cost of Sales and Gross Profit Margin

Our cost of sales primarily consists of (i) project fulfillment costs; (ii) cost of cloud services; (iii) cost of hardware and software; and (iv) staff costs.

A breakdown of the Group's cost of sales and gross profit forecast by business segments is set out below:

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
Cost of Sales (In RMB thousands)					
GJ AI Real-time Video Agent	411,197	482,225	<u>131,567</u>	<u>424,936</u>	<u>556,503</u>
GJ Autopilot AIGC Agent	-	23,152	<u>5,548</u>	<u>132,484</u>	<u>138,032</u>
GJ AI Video Generation Agent and GJ AI Live Streaming Agent	8,564	8,140	<u>974</u>	<u>4,384</u>	<u>5,358</u>
GJ AI Real-time Voice Agent	9,888	2,952	<u>995</u>	<u>1,472</u>	<u>2,467</u>
Total Cost of Sales	429,649	516,469	<u>139,084</u>	<u>563,276</u>	<u>702,360</u>
Gross Profit (In RMB thousands)					
GJ AI Real-time Video Agent	201,459	240,647	<u>68,757</u>	<u>202,425</u>	<u>271,182</u>
GJ Autopilot AIGC Agent	-	28,236	<u>6,429</u>	<u>108,396</u>	<u>114,825</u>
GJ AI Video Generation Agent and GJ AI Live Streaming Agent	17,429	2,444	<u>337</u>	<u>1,096</u>	<u>1,433</u>
GJ AI Real-time Voice Agent	6,900	1,023	<u>1,080</u>	<u>440</u>	<u>1,520</u>
Total Gross Profit	225,789	272,349	<u>76,603</u>	<u>312,357</u>	<u>388,960</u>

Gross Margin (%)

GJ AI Real-time Video Agent	32.9%	33.3%	<u>34.3%</u>	<u>32.3%</u>	<u>32.8%</u>
GJ Autopilot AIGC Agent	-	54.9%	<u>53.7%</u>	<u>45.0%</u>	<u>45.4%</u>
GJ AI Video Generation Agent and GJ AI Live Streaming Agent	67.1%	23.1%	<u>25.7%</u>	<u>20.0%</u>	<u>21.1%</u>
GJ AI Real-time Voice Agent	41.1%	25.7%	<u>52.0%</u>	<u>23.0%</u>	<u>38.1%</u>
Overall	34.4%	34.5%	<u>35.5%</u>	<u>35.7%</u>	<u>35.6%</u>

Our total cost of sales is expected to be RMB702.4 million for FY2026, representing a year-on-year increase of approximately 36.0%. The increase in cost of sales is primarily due to the expected increase in revenue from GJ AI Real-time Video Agent business and GJ Autopilot AIGC Agent business, which is partially offset by the expected decrease in revenue from GJ AI Video Generation Agent and GJ AI Live Streaming Agent business and GJ AI Real-time Voice Agent business.

As a result of above, gross profit for FY2026 is expected to be RMB389.0 million, representing a year-on-year growth of 42.8%. Our overall gross margin is expected to be 35.6% in FY2026, which is slightly higher than the overall gross margin of 34.5% in FY2025. Our newly-offered GJ Autopilot AIGC Agent business is expected to benefit from highly automated production, cost of sales for this segment is expected to be lower compared to other businesses and accordingly, expected to record an estimated gross margin of 45.4% in FY2026. With anticipated revenue growth from the new GJ Autopilot AIGC Agent business, our overall gross profit margin is expected to increase as a result of the changes in revenue structure driven by the new business. Gross profit margin from other business segments with relatively large revenue contribution is expected to stay relatively stable with a slight decrease, as we will continue to spend efforts to attract customers through offering discounts with the maturity of these solutions.

3.3 Operating Expenses

The following table sets forth the summary of operating expenses for the relevant periods:

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
Operating Expenses (In RMB thousands)					
Selling and marketing expenses	82,570	55,235	<u>14,827</u>	<u>65,776</u>	<u>80,604</u>
Administrative and other operating expenses	41,211	55,634	<u>14,384</u>	<u>47,637</u>	<u>62,021</u>
Research and development expenses	150,129	163,342	<u>68,940</u>	<u>161,136</u>	<u>230,076</u>
Total	273,910	274,211	<u>98,151</u>	<u>274,549</u>	<u>372,701</u>

3.3.1 Selling and Marketing Expenses

Our selling and marketing expenses primarily consist of (i) employee benefit expenses, representing salaries, bonuses and share-based payment expenses relating to the share options granted to our sales and marketing personnel under the Pre-IPO Share Option Plan; (ii) marketing service expenses, which mainly represent service fees and referral fees paid or payable to third-party offline marketing service providers; (iii) advertising and promotion expenses primarily relating to the online advertising and promotion of our solutions; (iv) office, utilities and travelling expenses incurred by our sales and marketing personnel; and (v) others, which primarily comprise of depreciation and amortization associated with our leasehold improvements, and right-of-use assets and short-term lease expenses incurred by our sales and marketing personnel.

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Employee benefit expenses	30,892	18,449	<u>6,587</u>	<u>13,993</u>	<u>20,580</u>
Marketing service expenses	28,202	21,325	<u>3,274</u>	<u>26,269</u>	<u>29,543</u>
Advertising and promotion expenses	17,784	10,940	<u>4,324</u>	<u>19,936</u>	<u>24,260</u>
Office, utilities and travelling expenses	3,238	2,398	<u>487</u>	<u>2,787</u>	<u>3,274</u>
Others	2,454	2,123	<u>155</u>	<u>2,791</u>	<u>2,947</u>
Total	82,570	55,235	<u>14,827</u>	<u>65,776</u>	<u>80,604</u>

Total selling and marketing expenses are forecasted to increase to RMB80.6 million for the year ending December 31, 2026 from RMB55.2 million for the year ended December 31, 2025, representing a year-over-year increase of 45.9%. Changes in selling and marketing expenses in FY2026 are consistent with revenue growth trend, as the Group continues to carry out marketing activities and advertising promotions amid the growth of new businesses.

3.3.2 Administrative and other operating expenses

Our administrative and other operating expenses primarily consist of (i) employee benefit expenses, representing salaries, bonuses and share-based payment expenses relating to the share options granted to our administrative personnel under the Pre-IPO Share Option Plan; (ii) depreciation and amortization, which comprise depreciation of leasehold improvements and right-of-use assets; (iii) professional service fees, which primarily comprise fees for legal, auditing, consulting and human resources services during our daily operation; (iv) listing expenses; (v) office, utilities, traveling and entertainment expenses incurred by our administrative personnel; and (vi) others, which primarily comprise short-term lease expenses incurred by our administrative personnel, bank fees, recruitment fees and communication fees.

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Employee benefit expenses	23,098	22,267	<u>8,024</u>	<u>18,522</u>	<u>26,546</u>

Total	41,211	55,634	<u>14,384</u>	<u>47,637</u>	<u>62,021</u>

Administrative expenses are expected to increase from RMB55.6 million in FY2025 to RMB62.0 million in FY2026, staying relatively stable with a slight year-on-year increase of approximately 11.5%. The payment of listing expenses is expected to be RMB16.8 million in FY2026.

3.3.3 Research and Development Expenses

The Group's research and development expenses primarily consist of (i) employee benefit expenses, representing salaries, bonuses and share-based payment expenses relating to the share options granted to our

R&D personnel under the Pre-IPO Share Option Plan; (ii) cloud service fees, representing fees for utilizing third-party cloud computing services associated with the R&D activities of GJ AI workforce solutions and frontier AI algorithms; (iii) depreciation and amortization, representing depreciation of equipment and right-of-use assets in connection with our R&D activities and facilities, and amortization in relation to software which are classified as intangible assets used for our R&D activities; (iv) material expenses, representing material and datasets used in our R&D activities; and (v) others, which primarily comprise office, utilities and traveling expenses incurred by our R&D personnel, and IP right protection expenses relating to our R&D activities.

Others	1,031	2,369	<u>149</u>	<u>1,568</u>	<u>1,717</u>
Total	150,129	163,342	<u>68,940</u>	<u>161,136</u>	<u>230,076</u>

Note 1: External R&D collaborations from part of the use of proceeds. For details, please refer the “Future Plans and Use of Proceeds” section in the Prospectus.

Research and development expenses are forecasted to increase to RMB230.1 million for the year ending December 31, 2026, representing a year-over-year increase of 40.9%. The Group’s research and development expenses are in line with its business development trend. The forecasted increase in research and development expenses is primarily driven by the forecasted increase in cloud service fees, due to the Group’s continuous investment in computing power, using both its own funds and the proceeds from the Proposed Listing.

3.4 Impairment Loss on Trade and Other Receivables and Contract Assets

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Impairment loss on trade and other receivables and contract assets	(21,170)	(27,595)	<u>(3,428)</u>	<u>(23,437)</u>	<u>(26,865)</u>
Total	(21,170)	(27,595)	<u>(3,428)</u>	<u>(23,437)</u>	<u>(26,865)</u>

Impairment loss on trade and other receivables and contract assets primarily represent provisions for impairment of trade and other receivables and contract assets.

Impairment loss on trade and other receivables and contract assets in FY2026 is forecasted to be RMB26.9 million, representing a year-on-year decrease of 2.7%. The expected slight decrease of impairment loss in FY2026 is mainly driven by decrease in impairment loss on trade receivables. Impairment loss on trade receivables for the year ending December 31, 2026 is forecasted based on expected credit loss percentage of the trade receivables. The estimated revenue growth in GJ autopilot AIGC agent in FY2026 resulted in an optimization of receivables structure in FY2026, subsequently a decrease in impairment loss on trade receivables as well.

3.5 Finance Income and Costs

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Finance income	2,239	857	151	2,569	2,720
Finance costs	(240)	(144)	(632)	433	(199)
Total	1,999	713	(481)	3,001	2,520

The Group's finance income consists of interest income on bank deposits. The Group's finance costs comprise interest expense on lease liabilities.

The Group's interest income on bank deposits is in line with the change of the principal amount of the Group's bank deposits. The increase in finance income in FY2026 is primarily due to interest income on bank deposits generated from the proceeds from the Proposed Listing. The Group's interest expense on lease liabilities will increase in FY2026, resulting from the expected new rentals signed during the Forecast Period.

3.6 Share of Loss of Associates

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Share of loss of associates	(27)	(164)	-	-	-
Total	(27)	(164)	-	-	-

An associate is an entity in which our Group or our Company has significant influence, but not control or joint control, over the financial and operating policies.

Share of loss of associates is forecasted to be nil for FY2026.

3.7 Accretion of Redemption Liabilities

	2024	2025	Jan-Apr 2026	May-Dec 2026	2026
	12 mths Actual	12 mths Actual	4 mths Estimate	8 mths Forecast	12 mths Forecast
(In RMB thousands)					
Accretion of redemption liabilities	(53,838)	-	-	-	-
Total	(53,838)	-	-	-	-

Accretion of redemption liabilities primarily relates to the redemption liabilities from the Pre-IPO Investments. In November 2024, we entered into a supplemental agreement with our Pre-IPO Investors to unconditionally terminate our redemption obligations, pursuant to which, the redemption liabilities were reclassified as equity. Therefore, the Accretion of Redemption Liabilities is nil for the year ended December 31, 2025 and for the year ending December 31, 2026.

3.8 Income Tax

Our income tax credit or expense arises from current income tax, which comprises provision for PRC corporate income tax for the year or period and over-provision in respect of prior years. Under the current PRC tax legislation, cumulative tax losses incurred by the Group's PRC subsidiaries will generally expire in 5 years, while those incurred by PRC subsidiaries qualified as high and new technology enterprises will expire within ten years under the current tax legislation. As the Group is expected to incur a loss, therefore no income tax will be generated for the year ending December 31, 2026.

4. Working Capital Forecast for the period up to June 30, 2027

4.1 Summary of Working Capital Forecast

Please refer to Appendix I for the Working Capital Forecast of the Group for the Forecast Period up to June 30, 2027.

4.2 Cash Flows from Operating Activities

4.2.1 Change in Working Capital

4.2.1(a) Change in Inventories

The Group's inventories primarily represent contract fulfillment cost, and the Group's contract fulfillment period typically ranges within one year. The Group's inventories are forecasted to be RMB82.4 million and RMB100.5 million for the years ending December 31, 2026 and for the 6 months ending June 30, 2027, respectively. The Group's inventory level is forecasted based on inventory turnover days. Inventory turnover days are forecasted to be 42 days during the Working Capital Forecast Period, based on historical level and management expectation of business development, which are in line with the inventory turnover days of 43 days for the year ended December 31, 2025.

4.2.1(b) Change in Contract Assets

The Group's contract assets mainly represent the retention money for providing GJ AI workforce solutions for telecom operators. The Group's contract assets are forecasted to be RMB40.0 million and RMB51.6 million for the years ending December 31, 2026 and for the 6 months ending June 30, 2027, respectively. The Group's contract assets are forecasted based on the Group's large-scale customers' revenue during the Working Capital Forecast Period.

4.2.1(c) Change in Trade Receivables

The Group's trade receivables mainly represent outstanding balances due from our customers for GJ AI workforce solutions, and they are forecasted based on historical level and management's expectation of business development. The Group's gross trade receivables turnover days are expected to be 137 days for FY2026 and for the 6 months ending June 30, 2027, which are generally in line with the gross trade receivables turnover days of 143 days for FY2025, as a higher portion of the revenue will come from business with lower trade receivable turnover days.

4.2.1(d) Change in Prepayments, Deposits and Other Receivables

The Group's prepayments, deposits and other receivables primarily comprise prepayments, value-added tax ("VAT") recoverable, deferred cloud service, other deposits and receivables and amounts due from related parties. The Group's prepayments, deposits and other receivables are expected to be primarily driven by the Group's prepayments and deferred cloud services. The Group's prepayment turnover days are forecasted to be 3 days during the Working Capital Forecast Period, which is consistent with the 3 days for FY2025. The growth of the Group's amount of deferred cloud services during the Working Capital Forecast Period is in line with the growth of research and development expenses.

4.2.1(e) Change in Trade Payables

The Group's trade payables primarily represent outstanding amounts due to our suppliers of cloud services, hardware and project implementation, which are expected to be settled within one year or repayable on demand. The Group's trade payables for FY2026 and 6 months ending June 30, 2027 are forecasted based on the Group's

trade payable turnover days, which are 77 days. The expected trade payable turnover days for the Forecast Period are in line with that of FY2025, which is 77 days.

4.2.1(f) Change in Contract Liabilities

The Group's contract liabilities represent the non-refundable advance payments made by customers while the underlying services are yet to be provided. During the Working Capital Forecast Period, the Group's contract liabilities are expected to be RMB81.5 million and RMB65.4 million for FY2026 and 6 months ending June 30, 2027, respectively. The Group's contract liabilities are forecasted based on the historical and on-going payment status and contractual terms between the Group and its clients.

4.2.1(g) Change in Other Payables and Accruals

The Group's other payables and accruals primarily consist of accrued expenses, deposits from distributors, accrued staff costs, other tax payables, amount due to related parties and others. The Group's other payables and accruals are forecasted as a percentage of the Group's total operating expenses (i.e. selling and marketing expenses, administrative and other operating expenses and R&D expenses) during the Working Capital Forecast Period, which is generally in line with that in the Track Record Period.

4.2.1(h) Change in Deferred Income

The Group's deferred income represents unamortized conditional government grants as subsidies for leased properties. The Group's deferred income is forecasted to remain nil during the Working Capital Forecast Period.

4.3 Cash Flows from Investing Activities

During the Forecast Period, the Group is expected to generate cash outflows of RMB5.3 million for the year ending December 31, 2026, and cash outflows of RMB9.9 million for the 6 months ending June 30, 2027, respectively.

The Group's cash outflows from investing activities are forecasted to mainly derive from payments for the acquisition of property, plant and equipment and interest income received. Cash outflows for the acquisition of property, plant and equipment are expected to be RMB8.0 million and RMB11.9 million for the year ending December 31, 2026 and for the 6 months ending June 30, 2027, respectively. The forecasted increase in acquisition of property, plant and equipment for the year ending December 31, 2026 and for the 6 months ending June 30, 2027 is primarily due to the use of proceeds from the Proposed Listing, particularly the purchase of relevant hardware products related to research and development.

4.4 Cash Flows from Financing Activities

4.4.1 Capital element of lease rental paid and Interest element of lease rental paid

As of December 31, 2026 and for the 6 months ending June 30, 2027, the Group had a lease liabilities balance of RMB6.2 million and RMB6.0 million, respectively.

The Group is forecasted to pay RMB0.2 million and RMB0.2 million of interest element of lease rentals for FY2026 and for the 6 months ending June 30, 2027, respectively. Meanwhile, the Group is expected to pay RMB3.8 million and RMB3.7 million of capital element of lease rentals for FY2026 and for the 6 months ending June 30, 2027, respectively. This forecast follows the historical pattern of lease rental payments and draw references from contractual terms of the on-going leases.

4.4.2 Capital contribution from investors

The capital contribution from investors was RMB180.5 million for the year ended December 31, 2025. During the Forecast Period, the Group forecasts that there will be no new capital contribution from investors in the future.

4.4.3 Net Proceeds from issue of ordinary shares

The Group is expected to be listed in or around June 2026, and receive net proceeds from the Proposed Listing of approximately HK\$1,279.1 million (being estimated gross proceeds of approximately HK\$1,397.0 million less underwriting commission, professional expenses, brokerage, transaction levy and fee in aggregate of approximately HK\$117.9 million in relation to the Proposed Listing).

5. Sensitivity analysis for Profit Forecast and Working Capital Forecast

5.1 Sensitivity Analysis

The Forecasts are forward-looking and are therefore subject to changes in market conditions and other factors that are outside the control of the Group's management. We performed the following analysis and summarized the impacts to the results of the Group:

(1) Sensitivity Analysis on Total Revenue

This analysis demonstrates the impact of changes on the Group's expected total revenue on the Group's profitability and cash level.

**For the year ending
December 31, 2026
RMB'000**

Scenario 1 (20% decrease in revenue*)

Revenue	<u>916,193</u>
Gross profit	<u>326,488</u>
Net (loss)/profit	<u>(28,053)</u>
Adjusted (loss)/profit	<u>2,505</u>
Cash and cash equivalent	<u>1,377,470</u>

Scenario 2 (10% decrease in revenue*)

Revenue	<u>1,003,757</u>
Gross profit	<u>357,724</u>
Net (loss)/profit	<u>(18,249)</u>
Adjusted (loss)/profit	<u>12,309</u>
Cash and cash equivalent	<u>1,347,698</u>

Scenario 3 (base case)

Revenue	<u>1,091,320</u>
Gross profit	<u>388,960</u>
Net (loss)/profit	<u>(8,445)</u>
Adjusted (loss)/profit	<u>22,113</u>
Cash and cash equivalent	<u>1,317,926</u>

Scenario 4 (10% increase in revenue*)

Revenue	<u>1,178,883</u>
Gross profit	<u>420,196</u>
Net (loss)/profit	<u>483</u>
Adjusted (loss)/profit	<u>31,042</u>
Cash and cash equivalent	<u>1,287,279</u>

Scenario 5 (20% increase in revenue*)

Revenue	<u>1,266,447</u>
Gross profit	<u>451,431</u>
Net (loss)/profit	<u>9,412</u>
Adjusted (loss)/profit	<u>39,970</u>
Cash and cash equivalent	<u>1,256,632</u>

(2) Sensitivity Analysis on GJ Autopilot AIGC Agent Revenue

Given the newly-offered GJ Autopilot AIGC Agent business is anticipated to record a rapid growth of revenue for the year ending December 31, 2026, this analysis demonstrates the impact of changes on the expected revenue from this new business to the Group's overall profitability and cash level. Gross trade receivables turnover days of the Group are expected to remain at 142.0 days during FY2026 for the purpose of this analysis.

**For the year ending
December 31, 2026
RMB'000**

Scenario 1 (40% decrease in Autopilot AIGC revenue*)

Revenue	<u>994,968</u>
Gross profit	<u>345,601</u>
Net (loss)/profit	<u>(33,376)</u>
Adjusted (loss)/profit	<u>(2,818)</u>
Cash and cash equivalent	<u>1,323,115</u>

Scenario 2 (30% decrease in Autopilot AIGC revenue*)

Revenue	<u>1,019,056</u>
Gross profit	<u>356,441</u>
Net (loss)/profit	<u>(28,557)</u>
Adjusted (loss)/profit	<u>2,001</u>
Cash and cash equivalent	<u>1,314,343</u>

Scenario 3 (20% decrease in Autopilot AIGC revenue*)

Revenue	<u>1,043,144</u>
Gross profit	<u>367,281</u>
Net (loss)/profit	<u>(23,738)</u>
Adjusted (loss)/profit	<u>6,820</u>
Cash and cash equivalent	<u>1,305,571</u>

Scenario 4 (10% decrease in Autopilot AIGC revenue*)

Revenue	<u>1,067,232</u>
Gross profit	<u>378,120</u>
Net (loss)/profit	<u>(18,919)</u>
Adjusted (loss)/profit	<u>11,639</u>
Cash and cash equivalent	<u>1,296,799</u>

Scenario 5 (base case)

Revenue	<u>1,091,320</u>
Gross profit	<u>388,960</u>
Net (loss)/profit	<u>(8,445)</u>
Adjusted (loss)/profit	<u>22,113</u>
Cash and cash equivalent	<u>1,317,926</u>

*Note: * the change only applies to revenue forecast for the period of January 2026 to December 2026*

Given the above scenarios, the Group is able to maintain a positive cash balance throughout the Forecast Period.

6 Conclusion

- The Directors have considered all the information contained in this memorandum and all significant factors, which have a material effect on the Profit Forecast and Working Capital Forecast.
- The Directors have disclosed in this memorandum any extraordinary items, which have arisen or are likely to arise in the Forecast Period. The Profit Forecast and Working Capital Forecast have been prepared based on accounting policies consistent in all material respects with those currently adopted by the Group.
- Taking into account the estimated net proceeds from the Global Offering and the financial resources presently available to us, including our cash and cash equivalents, cash flows from operating activities and our available loan facilities, our Directors are of the opinion that we have sufficient funds to meet our working capital requirements for at least the next 12 months from the date of the Prospectus.
